HI THERE.
ABOUT GOLDEN TECH

When engineers see a niche in dire need of efficiency, they fill it. Our company was born from a few engineers, a golden retriever, and some big ideas. We now have well over 60 employees in 3 locations. Some things never change, though. We’re still creating business efficiency and we’re still engineering.

THE GOLDEN TECH PARTNERS

STEVE MASSA
A former steel mill engineer and “Six Sigma Black Belt”, Steve is a seasoned leader of business. But engineering hardly tells Steve’s story of civic dedication.

GREG SCASNY
With his B.A. in EET, Greg worked in the Systems Department at Bethlehem Steel before Golden. Greg’s escaped Indiana winters by heading the Naples office.

SCOTT DUJMOVICH
From a process control engineer to entrepreneur, Scott has found making businesses more efficient is a great outlet for all the inherent Cubs’ fan angst.

STEVE TOMORY
Another “Six Sigma Black Belt”, Steve knows software and web languages inside and out. His knowledge of programming and management are second only to his knowledge of craft brews.

HOW WE’RE DIFFERENT
Founded by four Purdue University engineers, Golden Tech provides the highest level of managed services and support. Pairing a multi-tier model of support with a service-based, customer-friendly approach, we’ve become leaders in IT services. With more than 60 employees comprising 5 specialized teams, we’re equipped to plan for and handle any problem.

Our custom-tailor approach to common tech problems means that our customers always receive the most efficient and most applicable solution for their company. Focusing on relationships rather than products means we are invested in and ready to grow with our customers.
